# Multicrete Spray Boom 80

*Skid Mounted-Remote Control Spray Arm*

## Machine

This easily transported Multicrete Skid Mounted Spray Boom 80 consists of robotic Remotly Controlled Spray Arm mounted on a easily transportable Skid frame. Compact, yet efficient this Spray Arm allows horizontal and vertical access to those difficult areas.

The Spray Boom 80 increases production without compromising the Safety nor the workable effort by the operators. Simplistic Design and Features make for quick easy maintenance using common parts and equipment. Less down time, more operating production.

A very cost effective alternative for todays construction and mining scenarios.
