SHOTCRETE DEPTH MEASURING DEVICE

Accurate shotcrete depth measuring & branding system - **DATA SHEET**

Multicrete Shotcrete Depth Measuring Device Branding System has an easy-reach system.

Shotcrete Depth Measuring Devices are sold c/w three different size brands: choose a combination of 50 mm, 75 mm, 100 mm, 125 mm and 150 mm.

For easy reach of high back areas, the Depth Measurer comes complete with a 12 foot telescopic extension.

Shotcrete Depth Measuring Devices clearly indicate the depth of shotcrete on walls and back areas. They must be used when shotcrete is wet.

An EXCELLENT device to monitor shotcrete thicknesses.
